Alfa Laval wins SEK 50 million offshore order in the North Sea

Alfa Laval – a world leader in heat transfer, centrifugal separation and fluid handling – has won an order to supply equipment to an offshore oil platform in the North Sea. The order, booked in Energy & Environment segment, has a value of approximately SEK 50 million and delivery is scheduled for 2014.

The Alfa Laval equipment will be part of the important auxiliary system on the platform.

“This is the third large oil and gas order within a month, reflecting the good activity level in the sector. It confirms our strong position as a reliable supplier,” says Lars Renström, President and CEO of the Alfa Laval Group.

Did you know that... Alfa Laval supplied its first equipment for offshore platforms in the North Sea in the 70'ies?

About Alfa Laval

Alfa Laval is a leading global provider of specialized products and engineering solutions based on its key technologies of heat transfer, separation and fluid handling.

The company's equipment, systems and services are dedicated to assisting customers in optimizing the performance of their processes. The solutions help them to heat, cool, separate and transport products in industries that produce food and beverages, chemicals and petrochemicals, pharmaceuticals, starch, sugar and ethanol.

Alfa Laval's products are also used in power plants, aboard ships, in the mechanical engineering industry, in the mining industry and for wastewater treatment, as well as for comfort climate and refrigeration applications.

Alfa Laval wins SEK 50 million offshore order in the North Sea

Alfa Laval's worldwide organization works closely with customers in nearly 100 countries to help them stay ahead in the global arena.

Alfa Laval is listed on Nasdaq OMX, and, in 2012, posted annual sales of about SEK 29.8 billion (approx. 3.5 billion Euros). The company has today about 16 400 employees.
