### Alfa Laval wins SEK 90 million energy-efficiency order in China

**Alfa Laval – a world leader in heat transfer, centrifugal separation and fluid handling – has won an order to supply compact heat exchangers to a refinery in China. The order has a value of approximately SEK 90 million. It was booked late June in the Gasketed Plate Heat Exchangers unit of the Energy Division, with deliveries scheduled for 2018.**

The Alfa Laval plate heat exchangers will be installed in so called SECOOL applications, where seawater is used as a cooling media for different duties in the refinery.

“I am very pleased to announce this order for our gasketed plate heat exchangers,” says Susanne Pahlén Åklundh, President of the Energy Division. “They are compact and very energy efficient and hence perfect for applications in the refinery and petrochemical industries.”

**Did you know that...** plate heat exchangers are often used in SECOOL applications as they are three to five times more efficient than traditional shell-and-tube heat exchangers?

#### **About Alfa Laval**

Alfa Laval is a leading global provider of specialized products and engineering solutions based on its key technologies of heat transfer, separation and fluid handling.

The company's equipment, systems and services are dedicated to assisting customers in optimizing the performance of their processes. The solutions help them to heat, cool, separate and transport products in industries that produce food and beverages, chemicals and petrochemicals, pharmaceuticals, starch, sugar and ethanol.

Alfa Laval wins SEK 90 million energy-efficiency order in China

Alfa Laval's products are also used in power plants, aboard ships, oil and gas exploration, in the mechanical engineering industry, in the mining industry and for wastewater treatment, as well as for comfort climate and refrigeration applications.

Alfa Laval's worldwide organization works closely with customers in nearly 100 countries to help them stay ahead in the global arena. Alfa Laval is listed on Nasdaq OMX, and, in 2016, posted annual sales of about SEK 35.6 billion (approx. 3.77 billion Euros). The company has about 17 000 employees.
