### Alfa Laval wins SEK 60 million brewery order in India

**Alfa Laval – a world leader in heat transfer, centrifugal separation and fluid handling – has won an order from a leading multinational brewery group, to supply a process solution for one of its plants in India. The order is booked in the Food Technology & Life Science segment, has a value of approximately SEK 60 million and delivery is scheduled for 2016.**

The order is for a complete process line, including separators, heat exchangers, mixers and fluid handling equipment. The process line will, among other things, handle yeast propagation, fermentation, maturation and filtration. Once installed, this will be the first brewery in India to use Alfa Laval's unique mixing technology to reduce the fermentation processing time.

"This order is interesting in many ways since it involves a unique technology, a complete process line and also one of the major players in the brewery industry, says Lars Renström, President and CEO of the Alfa Laval Group. "It proves our position as a reliable supplier."

**Did you know that...** by applying forced mixing, such as Alfa Laval's IsoMix technology, the processing time for fermentation can be reduced by up to 30 percent?

#### **About Alfa Laval**

Alfa Laval is a leading global provider of specialized products and engineering solutions based on its key technologies of heat transfer, separation and fluid handling.

The company's equipment, systems and services are dedicated to assisting customers in optimizing the performance of their processes. The solutions help them

Alfa Laval wins SEK 60 million brewery order in India

to heat, cool, separate and transport products in industries that produce food and beverages, chemicals and petrochemicals, pharmaceuticals, starch, sugar and ethanol.

Alfa Laval's products are also used in power plants, aboard ships, oil and gas exploration, in the mechanical engineering industry, in the mining industry and for wastewater treatment, as well as for comfort climate and refrigeration applications.

Alfa Laval's worldwide organization works closely with customers in nearly 100 countries to help them stay ahead in the global arena.

Alfa Laval is listed on Nasdaq OMX, and, in 2014, posted annual sales of about SEK 35.1 billion (approx. 3.85 billion Euros). The company has about 18 000 employees.
