## Alfa Laval wins SEK 60 million energy-efficiency order in Russia

**Alfa Laval – a world leader in heat transfer, centrifugal separation and fluid handling – has won an order to supply Alfa Laval compact heat exchangers to a refinery in Russia. The order, booked in the Energy & Process segment, has a value of approximately SEK 60 million and delivery is scheduled for 2016 and 2017.**

The order comprises the delivery of Alfa Laval compact heat exchangers for the preheating of crude oil in different steps of the refinery process. The innovative installation, where a complete crude oil process will be heated with welded heat exchangers instead of traditional shell-and-tube heat exchangers, will result in a design with less space requirements than traditional solutions.

“I am very pleased to announce this refinery order where our heat exchangers play an important role to make the installation both compact and more energy efficient,” says Lars Renström, President and CEO of the Alfa Laval Group.

**Did you know that...** the weight and the dimension of the compact heat exchanger solution is about one third of a shell-and-tube installation with similar heat transfer capacity?

### **About Alfa Laval**

Alfa Laval is a leading global provider of specialized products and engineering solutions based on its key technologies of heat transfer, separation and fluid handling.

The company's equipment, systems and services are dedicated to assisting customers in optimizing the performance of their processes. The solutions help them to heat, cool, separate and transport products in industries that produce food and beverages, chemicals and petrochemicals, pharmaceuticals, starch, sugar and ethanol.

Alfa Laval wins SEK 60 million energy-efficiency order in Russia

Alfa Laval's products are also used in power plants, aboard ships, oil and gas exploration, in the mechanical engineering industry, in the mining industry and for wastewater treatment, as well as for comfort climate and refrigeration applications.

Alfa Laval's worldwide organization works closely with customers in nearly 100 countries to help them stay ahead in the global arena. Alfa Laval is listed on Nasdaq OMX, and, in 2015, posted annual sales of about SEK 39.7 billion (approx. 4.25 billion Euros). The company has about 17 500 employees.
