### Alfa Laval wins SEK 125 million order for marine exhaust gas cleaning systems

Alfa Laval – a world leader in heat transfer, centrifugal separation and fluid handling – has won an order to supply several Alfa Laval PureSO<sub>x</sub> exhaust gas cleaning systems. The order was booked late March in the Marine Division's business unit Boiler & Gas Systems. It has a value of approximately SEK 125 million and delivery is scheduled for 2018 and 2019.

The order includes eight Alfa Laval PureSO<sub>x</sub> exhaust gas cleaning systems (hybrid scrubbers) to be installed onboard two vessels.

"I am very pleased to announce this large order for our scrubber systems. It confirms that Alfa Laval PureSO<sub>x</sub> is an attractive and proven solution for the reduction of sulfur oxides," says Peter Leifland, President of the Marine Division.

**Did you know that...** Alfa Laval PureSO<sub>x</sub> hybrid scrubber solution can use both sea water and fresh water to clean the emissions from the engines?

#### **About Alfa Laval**

Alfa Laval is a leading global provider of specialized products and engineering solutions based on its key technologies of heat transfer, separation and fluid handling.

The company's equipment, systems and services are dedicated to assisting customers in optimizing the performance of their processes. The solutions help them to heat, cool, separate and transport products in industries that produce food and beverages, chemicals and petrochemicals, pharmaceuticals, starch, sugar and ethanol.

Alfa Laval's products are also used in power plants, aboard ships, oil and gas exploration, in the mechanical engineering industry, in the mining industry and for wastewater treatment, as well as for comfort climate and refrigeration applications.

Alfa Laval's worldwide organization works closely with customers in nearly 100 countries to help them stay ahead in the global arena. Alfa Laval is listed on Nasdaq
