Alfa Laval wins SEK 100 million energy-efficiency order

Alfa Laval – a world leader in heat transfer, centrifugal separation and fluid handling – has won an order to supply Alfa Laval OLM I heat exchangers to a power plant in the Middle East. The order, booked in the Energy & Process segment, has a value of approximately SEK 100 million and delivery is scheduled for 2017.

The heat exchangers will recover energy and generate steam to the gas turbine to increase the energy efficiency of the power plant.

“I am very pleased to announce that we, within a short period, have won a second large order for our OLM I heat exchangers,” says Svante Karlsson, President of the Process Technology division in Alfa Laval. “The Alfa Laval OLM I product range are both high-performing and reliable which are important factors for customers in the demanding power industry.”

Did you know that... Alfa Laval OLM I heat exchangers can weigh as much as 400 tons and handle pressures and temperatures up to 620 bar and 1000 °C respectively?

About Alfa Laval

Alfa Laval is a leading global provider of specialized products and engineering solutions based on its key technologies of heat transfer, separation and fluid handling.
