Alfa Laval wins SEK 60 million food order

Alfa Laval – a world leader in heat transfer, centrifugal separation and fluid handling – has won an order to supply complete process lines to an edible oil processing plant in the Middle East. The order has a value of approximately SEK 60 million and is booked in the Food Systems unit of the Food & Water Division. Deliveries are scheduled for 2020.

The order comprises complete process lines for processing and refining edible oil – and includes various pieces of equipment such as high-speed separators, mixers and different types of heat exchangers.

“We have a broad range of efficient and hygienic products for the food industry. And that in combination with our extensive process knowledge makes us a reliable partner to our customers,” says Nish Patel, President of the Food & Water Division.
