### Alfa Laval wins SEK 75 million energy efficiency order

**Alfa Laval – a world leader in heat transfer, centrifugal separation and fluid handling – has won an order to supply compact heat exchangers to a refinery and petrochemical plant in China. The order has a value of approximately SEK 75 million. It is booked in the Welded Heat Exchangers unit of the Energy Division, with deliveries scheduled for 2019 and 2020.**

The order comprises Alfa Laval compact heat exchangers which will be used to recover and reuse heat in the refinery, which produces both transportation fuels and feedstock for petrochemical production.

“I am pleased to announce this order for our energy efficient heat exchangers. We have a broad range of products for the refinery and petrochemical industries that all meet the customers’ tough demands on reliability, efficiency and performance,” says Susanne Pahlén Åklundh, President of the Energy Division.
