1

Alfa Laval Hybrid Powder Mixer

Accommodating the need for mixing multiple powders in the production of dressings and condiments, this powder mixer ensures high speed mixing.

2

Alfa Laval Rotary Jet Mixer

This mixer secures efficient distribution of liquid in the mixing tanks, lowering mixing time by up to 70% for dressings and condiments, and producing greater yield.

3

Alfa Laval ThinkTop D30

Compact and intelligent control unit provides simple and reliable valve automation for dressing and condiment production.

4

Alfa Laval LKH pumps

This high efficiency pump reduces product recirculation within the pump head, which, in turn, reduces shear on the pumped dressing and condiment, resulting in gentler handling.
