Alfa Laval and the Environment

New target for Carbon Dioxide reduction 2007-2011

Göran Mathiasson
Executive Vice President
Alfa Laval Group

Clean technologies – by nature

Separation

Fluid Handling

Heat Transfer

"Green Operations" – what is it?

Identifying where
we have our
biggest impact

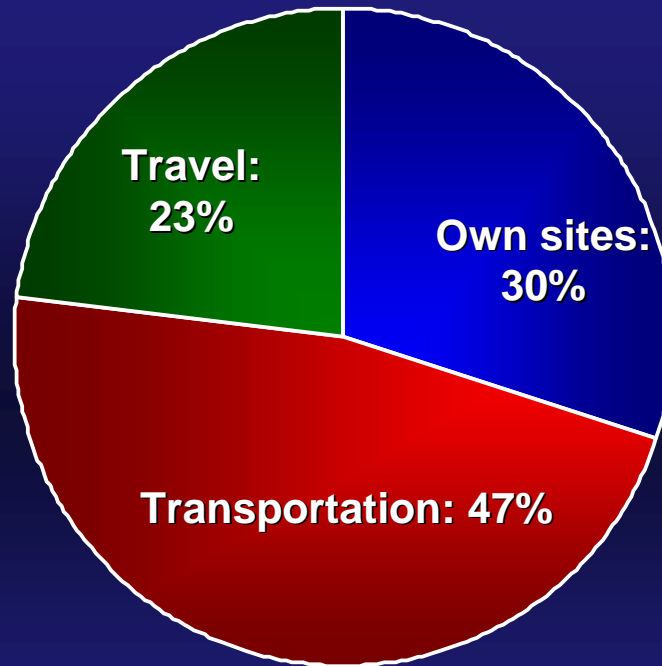

Driven in the line – coordinated by our Environmental Council

Main activities:

- Environmental Management System roll-out
- Evaluation of transport providers
- Company cars and business travel
- Life cycle analysis on our products

Our environmental impact

CO₂-e; split between major areas with impact. Estimate, year 2006.

86,000 tones

Our target for CO₂-e reduction

2007-2011

-15%
