Alfa Laval AC70X / ACH70X / ACP70X

Brazed plate heat exchanger for air conditioning and refrigeration

Alfa Laval AC brazed plate heat exchangers provide efficient heat transfer with a small footprint. They are specifically designed to work in air conditioning and refrigeration applications as evaporators and condensers in chillers and heat pumps.

**Applications**
- Evaporator
- Condenser
- Cascade systems

**Benefits**
- Compact
- Easy to install
- Self-cleaning
- Low level of service and maintenance is required
- All units are pressure and leak tested
- Gasket free

**Design**
The brazing material seals and holds the plates together at the contact points ensuring optimal heat transfer efficiency and pressure resistance. Using advanced design technologies and extensive verification guarantees the highest performance and longest possible service life.

Different pressure ratings are available for different needs.

The integrated distribution system ensures an even distribution of the refrigerant throughout the plate package.

Based on standard components and a modular concept, each unit is custom-built to meet the specific requirements of each individual installation.

Suitable with most HFC, HFO and natural refrigerants.

**Examples of connections**
- External thread
- Internal thread
- Soldering
- Welding
Technical Data

Standard materials

- Cover plates: Stainless steel
- Connections: Stainless steel
- Plates: Stainless steel
- Brazing filler: Copper

Dimensions and weight

1. A measure (mm): \(11 + (2.3 \times n)\)
2. A measure (inches): \(0.43 + (0.09 \times n)\)
3. Weight (kg): \(1.9 + (0.18 \times n)\)
4. Weight (lb): \(4.19 + (0.4 \times n)\)

1. \(n\) = number of plates
2. Excluding connections

Standard data

- Volume per channel, litres (gal): \(0.095 (0.025)\)
- Max. particle size, mm (inch): \(1 (0.039)\)
- Max. flowrate \(\text{m}^3/\text{h} (\text{gpm})\): \(14 (62)\)
- Flow direction: Parallel
- Min. number of plates: 4
- Max. number of plates: 124
1. Water at 5 m/s (16.4 ft/s) (connection velocity)
