

Service to secure compliance

Alfa Laval PureBallast services and Performance Agreements

Safeguard your investment

A ballast water treatment system is a major investment with a single purpose: ensuring your environmental compliance. In Alfa Laval PureBallast, you've made a wise choice of compliance technology. With our flexible service offering, you can make an equally wise choice to secure its lasting performance.

Your partner in compliance

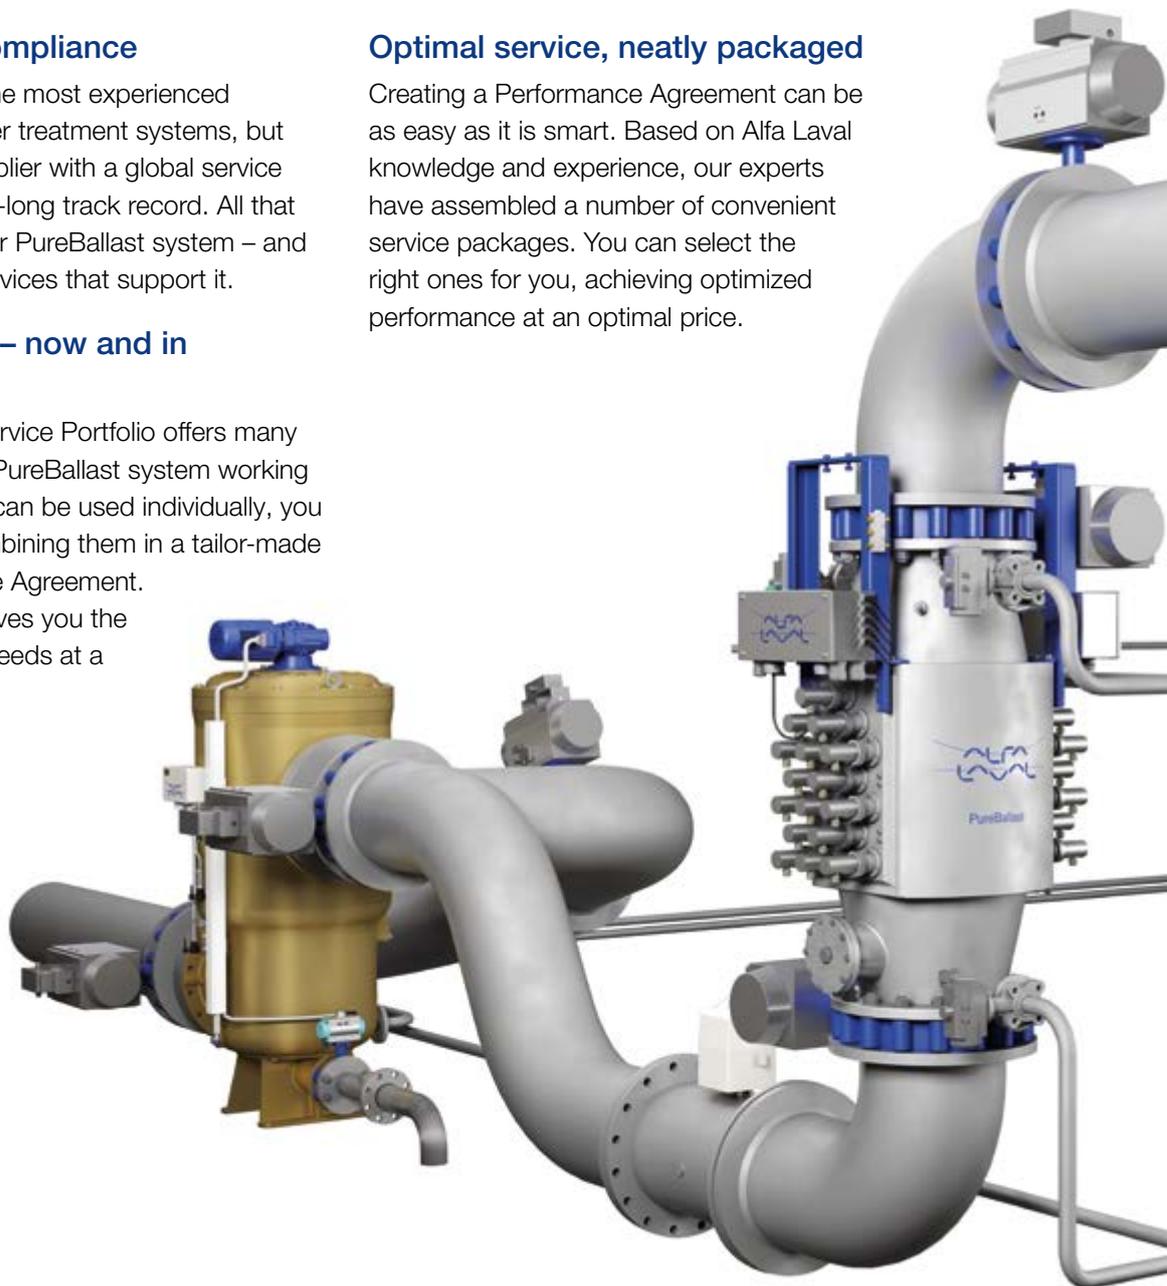

Alfa Laval is not only the most experienced supplier of ballast water treatment systems, but also a true marine supplier with a global service network and a century-long track record. All that expertise is part of your PureBallast system – and the comprehensive services that support it.

Top performance – now and in the future

The Alfa Laval 360° Service Portfolio offers many services to keep your PureBallast system working at its best. While they can be used individually, you get most value by combining them in a tailor-made Alfa Laval Performance Agreement. This flexible solution gives you the ideal service for your needs at a fixed, budgeted cost.

Optimal service, neatly packaged

Creating a Performance Agreement can be as easy as it is smart. Based on Alfa Laval knowledge and experience, our experts have assembled a number of convenient service packages. You can select the right ones for you, achieving optimized performance at an optimal price.

ent and peace of mind

PureBallast service examples

We offer a wide range of PureBallast services that can be used on their own or combined in a tailored Performance Agreement. They include:

Installation Supervision

Ensure proper installation according to best practices and classification society specifications.

Calibration

Ensure all sensors and transmitters are communicating correct values to the control system.

Performance Audit

Ensure your system is true to its type approval through system updates and careful evaluation of all functions.

Recommissioning

Restore performance and avoid potential damage at start-up after a long period of system inactivity.

PureBallast Compliance Service Package

For convenience and economy, Alfa Laval experts have put together a predefined annual service package. The PureBallast Compliance Service Package includes everything needed to verify that your system is functioning according to type approval:

Full system check and test

Calibration

System optimization

Crew guidance

Alfa Laval in brief

Alfa Laval is a leading global provider of specialized products and engineering solutions.

Our equipment, systems and services are dedicated to helping customers to optimize the performance of their processes. Time and time again. We help our customers to heat, cool, separate and transport products such as oil, water, chemicals, beverages, foodstuffs, starch and pharmaceuticals.

Our worldwide organization works closely with customers in almost 100 countries to help them stay ahead.
