

Total solutions in ballast water treatment

The complete Alfa Laval PureBallast offering

Total solutions fo

Ballast water treatment is all about protecting the environment. But acquiring a ballast water treatment system is all about your needs: being able to sail smoothly, with timely deliveries and fulfilled obligations.

Solutions with you in focus

Ballast water treatment is more than today's reality. It's tomorrow's as well. Besides getting the right system installed in time, you need to make sure your supplier can support you – throughout the lifetime of your vessel.

With our total solutions for Alfa Laval PureBallast, you'll find support in every phase and at every step. Not only can we help you find the ideal system fit, we can make sure your system is properly installed and keep it compliant and reliable in the long term.

All along the way, you have access to our deep knowledge and committed global network.

Your need for compliance and performance is the heart of our PureBallast offering. In addition to leading technology, our total solutions build on more than a decade of experience, well-developed resources and the world's largest partner and service network.

PLANNING AND SOLUTION

When planning your system, you need to make sure it's an optimal fit – for your vessel and where it sails and deballasts, but also for your budget.

We can help you find your ideal system specifications, so that you save time and cost in installation. You can even turn to us for legal advice and financing, to ensure your investment is equally sound.

What you experience:

- Validated solution for your need
- Easy integration
- Simple and secure investment

ALFA LAVAL SOLUTION SUPPORT

- Deep knowledge
- Global sales and service presence
- High-scale production

r peace of mind

PROJECT AND INSTALLATION

After engineering and financing, you still have a schedule to keep. You want ways to further reduce your retrofit execution time and investment – without the risk of anything going wrong.

Our project management experience and commissioning expertise bring you a smooth and successful process. By training your crews as well, we can make sure they're ready to protect your compliance and uptime.

What you experience:

- Correct and on-time delivery
- Time and money saved in installation
- Successful start-up
- Crew prepared for operation

PERFORMANCE ASSURANCE

With your system in place, you'll want to get back to business. And you'll want operations to continue, without interruptions or delays.

Over your system's lifetime, we can safeguard its compliance, uptime and cost efficiency, for example through ongoing training and services like preventive maintenance. Simply put, we can keep you sailing as planned.

What you experience:

- Confidence in proving compliance
- No business interruptions
- Lasting performance

ALFA LAVAL ENGINEERING PARTNERSHIP

- Worldwide network
- Comprehensive skills
- Extensive experience

Alfa Laval in brief

Alfa Laval is a leading global provider of specialized products and engineering solutions.

Our equipment, systems and services are dedicated to helping customers to optimize the performance of their processes. Time and time again.

We help our customers to heat, cool, separate and transport products such as oil, water, chemicals, beverages, foodstuffs, starch and pharmaceuticals.

Our worldwide organization works closely with customers in almost 100 countries to help them stay ahead.
