

## Alfa Laval Spare Parts for freshwater generators

Genuine parts with unmatched quality for complete peace of mind

Your Alfa Laval freshwater generator is an investment in first-class performance. Protecting that investment means ensuring long-term operation, which can only be achieved with high-quality parts designed for reliability and durability. When it comes to spares, there is nothing like genuine spare parts from Alfa Laval.

### What we do

Alfa Laval maintains an extensive inventory of spare parts to support the current product range. Our global service network provides them around the clock and around the world, so that you never have to compromise your equipment's performance.

Genuine Alfa Laval spare parts are the most effective way to avoid performance deviations and malfunctions in your freshwater generator, which makes them your most economical choice. Alternatives from other manufacturers cannot offer the same documented performance or quality and safety declarations.

### Benefits

- Reliable performance and uptime
- Easy maintenance at longer intervals
- Certified materials
- Long-term savings
- Quick delivery from distribution centres around the world

## Scope of service

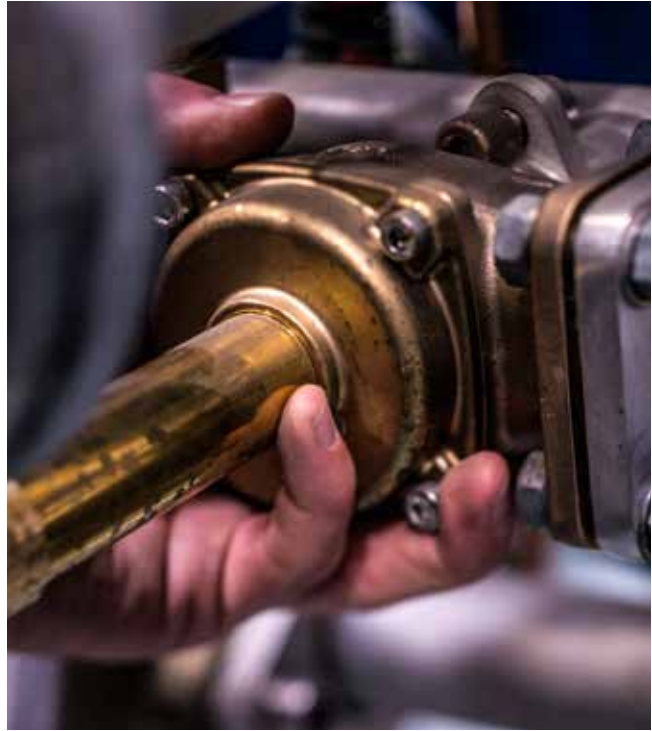

Alfa Laval genuine spare parts are available worldwide and 24/7 through a global network of Alfa Laval distribution centres. They contribute to the lowest possible total cost of ownership for your Alfa Laval freshwater generator.

Alfa Laval's well-functioning supply chain guarantees the highest quality for your spare parts thanks to:

- Long-term design experience and continuous improvements
- Theoretical calculation, lab and field tests
- Expertise with regard to material, flow and strength
- Quality documentation and change management
- Close cooperation with suppliers
- In-house manufacturing of critical parts
- Quality process and inspections during manufacturing
- Traceability of parts
